

Concept of Computer-supported Case-based Learning for Teachers' and Trainers' Professional Development

 work with documented, complex video-cases from educational practice not known to the learners

case =

finished, authentic classroom situation, which is exemplary for the every day work of teachers and trainers in the adult education sector

- Use of computer-supported learning environment
- Analysis and interpretation of 10-15 minute cases

Professionalism can be characterized

- by one's ability "to make adequate use of a broad, scientifically sound and thus in many ways abstracted knowledge in concrete situations, or vice versa: to recognize in such situations which elements from the pool of knowledge might be relevant" (Tietgens, 1988, p. 37)
- by one's ability to adopt multiple perspectives on single issues (Nittel, 2000)
