

TEACHERS PROFESSIONAL DEVELOPMENT in INDONESIA

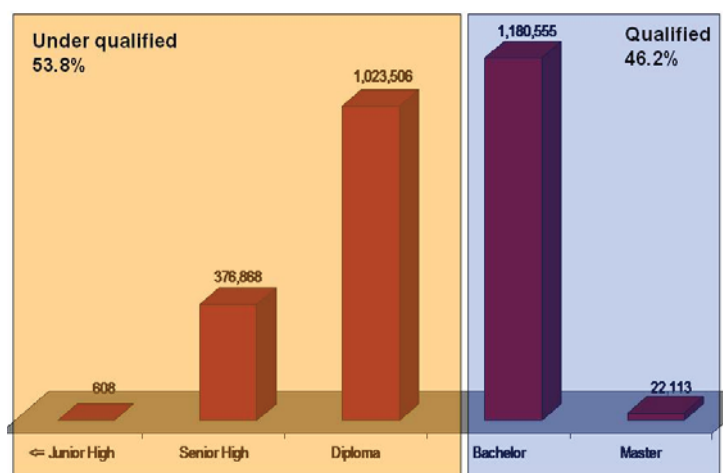

No country reached industrialized status without educational reforms. A country's education system is one of the most important drivers which determine a nation's evolution. If we look at neighbouring countries like Singapore and Malaysia, the priority on educational system enhancement can be seen through the teachers' certification.

Certified Teachers in Neighbouring Countries

Certified of Indonesian Teachers

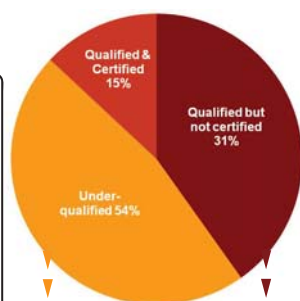

About 53% of the total 2.603.650 teachers in Indonesia are under-qualified; and still required to obtain minimum qualification of Bachelor Degree. However, the teacher certification can ONLY be acquired by those who hold Bachelor degree.

SAMPOERNA FOUNDATION (SF) is a professional philanthropic organization and a service provider with a focus in education. As the key pillars to improve the number of qualified and certified teachers in Indonesia, Sampoerna Foundation initiated Sampoerna Foundation Teacher Institute and Sampoerna School of Education.

SAMPOERNA SCHOOL of EDUCATION is an Institution of higher learning aimed at creating a new generation of teachers in Mathematics and English equipped with an international standard of teaching competency and leadership skills to develop the youths of today.

- International best practice & teaching methodologies
- Highly reputable & international faculty
- Partnership with international institutions
- Leading edge campus facility
- Scholarship for talented candidates
- Excellence student services
- Dual language medium of instruction

SAMPOERNA FOUNDATION TEACHER INSTITUTE provides the teachers of Indonesia with quality professional development to increase their knowledge, skills and ability to best meet the learning needs of young Indonesians and hence nurture the future leaders.
